3 LOS ANGELES, CALIFORNIA TUESDAY, AUGUST 28, 2018
4 DEPARTMENT 28 HON. YVETTE M. PALAZUELOS
5 REPORTER: RHONA S. REDDIX, CSR 10807
6 TIME: A.M. SESSION
7 APPEARANCES: (SEE TITLE PAGE.)
8
9

10 THE COURT: Pico Neighborhood Association versus
11 City of Santa Monica, BC616804. Good morning.
12

13 (Responses.)
14

15 THE COURT: Counsel, make your appearances.

16 MR. RUBIN: Robert Rubin on behalf of Plaintiffs.
17 Good morning, Your Honor.

18 MR. SHENKMAN: Good morning. Kevin Shenkman also
19 for Plaintiffs.

20 MS. ALARCON: Good morning, Your Honor. Andrea
21 Alarcon for the plaintiffs.

22 MR. GORDON: Ellery Gordon on behalf of
23 Plaintiffs.

24 MR. GRIMES: Good morning, Your Honor.
25 Milton Grimes on behalf of Plaintiff.

26 MR. MCRAE: Marcellus Mc Rae, Gibson, Dunn and
27 Crutcher, appearing on behalf of City of Santa Monica.

28 MR. SCOLNICK: Kahn Scolnick on behalf of the City

1 of Santa Monica.

2 MS. HENRY: And Tiaunia Henry on behalf of City of
3 Santa Monica.

4 THE COURT: Thank you. Everyone be seated.

5 MR. MCRAE: Thank you, Your Honor.

6 THE COURT: Let me ask Defendants, you filed a
7 Revised Motion for Sanctions; right?

8 MR. SCOLNICK: We did, Your Honor.

9 THE COURT: Was that on August 20th or is that the
10 original one?

11 MR. SCOLNICK: I believe that was August 20th. We
12 calculated the ten-day response dated the 30th, the
13 Plaintiffs' response; so it would have been the 20th we
14 filed.

15 THE COURT: Okay. And do we have a response yet?

16 MR. SCOLNICK: It's due the 30th.

17 THE COURT: Oh, right, right. Okay. So we got to
18 hold on to that. Okay. That's still up.

19 Anything else to talk about before we
20 start?

21 MR. SCOLNICK: We have three issues, Your Honor.

22 THE COURT: All right.

23 MR. SCOLNICK: First, sorry to be bringing this up
24 again, but the designations.

25 THE COURT: Okay.

26 MR. SCOLNICK: Last night we learned of a 180 by
27 plaintiffs, but let me just walk you through it and I
28 think we can resolve it without too much of a fight I

1 hope.

2 So you'll recall that Plaintiff designated
3 all the council members by depositions only?

4 THE COURT: Yes.

5 MR. SCOLNICK: The first day of trial we talked
6 about the process where each side would designate each
7 part, Your Honor would rule we claim one time. We went
8 through a number of fits and starts, but eventually we
9 got them to Your Honor, and the Court ruled. And as of
10 last Friday we were told that we would have all the
11 videos by Saturday; we'd be able to review them so the
12 plaintiffs could play them and we'd be done with them.

13 Saturday we got no videos. We asked them.
14 They said they were having technical difficulties.
15 Eventually we got one video, but yesterday they told us
16 they were taking issue with all of our designations,
17 saying they were hearsay and outside the scope of what's
18 designated.

19 So that's where we are right now. We have
20 a proposal, if Your Honor --

21 THE COURT: All right.

22 MR. SCOLNICK: Our proposal is that we're done
23 fighting about this. We think that this is just a side
24 show. It's petty. It doesn't advance the case. We
25 think if they want to revisit what we can play, we're
26 willing to -- unless Your Honor prevents them from doing
27 it, we're willing to let them revisit it. We'll meet
28 and confer with them. We've been here for a month. We

1 don't that there's a case, and these videos aren't going
2 to change anything.

3 So what we propose is we go back to the
4 drawing board with the videos. We -- in good faith, we
5 review the City's designations, which Your Honor's
6 already ruled on, and if we can find some that are not
7 truly within the scope of completeness, we will pull
8 them out and so the plaintiffs can play whatever videos
9 they want.

10 THE COURT: Okay. Well, remember part of my
11 thinking on that with allowing it is that they weren't
12 preservation videos, which means you were thinking at
13 the time when they were taken that you wouldn't have an
14 opportunity to call them, which is why I gave a lot
15 leeway to that.

16 MR. SCOLNICK: I understand. And we're not trying
17 to snatch defeat from jaws of victory, Your Honor, but
18 we're just trying to avoid a fight on this.

19 THE COURT: Okay.

20 MR. SCOLNICK: And, again, if they have a hearsay
21 objection -- and we think it's been waived because they
22 didn't make a hearsay objection but -- we would propose
23 doing that in good faith. Now, that would mean there's
24 no videos to play today. Plaintiffs represented to us
25 that they wanted to finish today.

26 THE COURT: Okay.

27 MR. SCOLNICK: But there will be no videos. We
28 would redo that.

1 In the meantime, we have a witness, Dr.
2 Lichtman, who, as you know, is coming out here. He'll
3 be here tomorrow to testify --

4 THE COURT: Right.

5 MR. SCOLNICK: -- tomorrow and Thursday. And then
6 some subset of our mutual teams can work this out so
7 hopefully by Friday we have some agreement on what the
8 clips are. That's what we propose.

9 And then finally, Your Honor, I would just
10 point out that this has wasted a lot of our time and a
11 lot of the Court's time, and we'll address that at the
12 end of the trial.

13 MR. SHENKMAN: Your Honor, if I may perhaps give a
14 little bit of background about what we encountered very
15 recently, in fact, over the weekend.

16 If Your Honor may recall, we took the
17 deposition of Tony Vazquez while the trial was going on,
18 and we provided our designations to defense counsel for
19 that deposition. I think it was a total of three or
20 four designations, very discrete. I think it may have
21 been the only point that we were trying to make with
22 those designations is that Mr. Vazquez is almost certain
23 to win the State Board of Equalization race and,
24 therefore, come December he will no longer be on the
25 Santa Monica city council.

26 What we got back is not anything -- they
27 want to play these many other portions where Mr. Vazquez
28 is pontificating about what he thinks, what remedy,

1 whether it would be effective or not, and, I mean, it's
2 unqualified expert opinion, but more importantly it has
3 nothing to do with what plaintiffs are designated --
4 designating.

5 And if I may direct the Court to People
6 versus Gambos (phonetic), 1975, Cal.App.3rd [sic] 187,
7 in particular at 192, 193, it discusses the rule of
8 completeness and Evidence Code 356.

9 THE COURT: I understand the rule of completeness.
10 Did you not hear what I said about the fact that these
11 designations were not preservation videos?

12 MR. SHENKMAN: Sure.

13 THE COURT: So you wouldn't be expected to examine
14 on everything and present just in response to your
15 designation; so they should be allowed to designate
16 other areas --

17 MR. SHENKMAN: So --

18 THE COURT: -- unless you're going to call him
19 live.

20 MR. SHENKMAN: Well, so I think it's -- because
21 it's a party opponent, it's Plaintiffs' right to play
22 certain portions that they wish from the deposition. If
23 defendant then wants to call that witness live,
24 that's --

25 THE COURT: Well, we had this discussion already.
26 That wasn't going to happen. We were going to do all
27 through video. You weren't going to do partially the
28 deposition on video and partially live. We were going

1 to do one or the other, is I believe the discussion we
2 had.

3 MR. SHENKMAN: Okay. Well, I'm sorry I
4 misunderstood.

5 THE COURT: All right.

6 MR. SHENKMAN: So we'll move on, I suppose.

7 MR. SCOLNICK: And like I said, as far as Tony
8 Vazquez, this recent one, we will go back to what we
9 designated, and if we need to pull some back in good
10 faith, we'll do that so we can just get on with this.

11 MR. SHENKMAN: Your Honor, if that's the case, we
12 may want to just play volume one of Mr. Vazquez, and
13 we'll -- you know, we'll -- won't waste any more of the
14 Court's time with any video. If they want to call those
15 folks live, then we can deal with the deposition; if
16 not, then we'll just rest our case after Professor
17 Levitt.

18 THE COURT: So your solution is to just call them
19 live?

20 MR. SHENKMAN: Well, we won't call them live in
21 our case in chief. I don't think it's necessary. I
22 think at this point be a waste of time. But, of course,
23 defendant is free to call them live if they'd like in
24 their case.

25 THE COURT: Then why play any video at all?

26 MR. SHENKMAN: That may be where we end up, Your
27 Honor.

28 THE COURT: Okay. That's a lot of wasted time all

1 right.

2 MR. SCOLNICK: Lot of wasted time. I can't tell
3 them what to put on, Your Honor. If they're going to
4 call anyone in their case, it's only by designation. If
5 we call someone in our case, they can cross-examine
6 them, but that's just how it's got to work.

7 MR. SHENKMAN: Yeah. And I have no idea what
8 witnesses defendant is going to call because their
9 witness list is, you know, I think a lot larger than
10 what they're actually planning to call. So maybe we
11 just wait and see.

12 THE COURT: Okay.

13 MR. SHENKMAN: Try to keep --

14 THE COURT: Perhaps in rebuttal, I mean, you can
15 call them live if they don't call them.

16 MR. SCOLNICK: I mean, again, they had a plan.
17 They had a witness list. They said what they were going
18 to do. I think if I -- what I'm hearing now is the only
19 video they're going to play is Tony Vazquez, volume one,
20 that's been cut. We have the designations for him.
21 We're okay with that video. If that's it, then
22 Plaintiffs can rest today after Mr. Levitt's done. We
23 can play -- I think it's a 35-minute video.

24 MR. SHENKMAN: Yeah. And I apologize for any
25 waste of the Court's time. I don't think it helps to
26 then waste more of the Court's time with playing I think
27 what would amount to maybe eight to ten hours' worth of
28 video, is what it ended up being; so that's what I'm

1 trying to avoid.

2 THE COURT: Okay. So we're going to hear from
3 Levitt today and then the video depositions at some
4 other time possibly or just live testimony?

5 MR. SHENKMAN: I think we'll just do Vazquez,
6 volume one, if that's acceptable to Defendant, and we'll
7 move on.

8 MR. SCOLNICK: It's their case, Your Honor.
9 Whatever they want to play.

10 THE COURT: And that one is done, Vazquez.

11 MR. SCOLNICK: That one is done and we're okay
12 with it.

13 THE COURT: Okay.

14 MR. SCOLNICK: That's it.

15 And we also want to address the proffer
16 this morning with respect to Ms. McDonald. We submitted
17 it. If it's satisfactory to the Court, we would like to
18 get that order and then make our proffer.

19 THE COURT: Okay. Were there any responses? I
20 didn't see any.

21 MR. SHENKMAN: Your Honor, I'm not sure that it
22 required a written response. I can certainly respond
23 now if that's okay with the Court.

24 THE COURT: All right.

25 MR. SHENKMAN: You know, reading through it,
26 it's -- the vast majority of it reads like a motion for
27 reconsideration, and then the last part is -- there's
28 four questions that they -- the Defendant apparently is

1 okay answering.

2 And what they ask for is that that not
3 be -- that answering those four questions not itself
4 constitute a waiver, sort of like a use immunity kind of
5 thing, and we're fine with that.

6 But I don't know that those four questions
7 are all of the questions that need to be asked in order
8 to deal with the issue of privilege, and so that's --

9 THE COURT: But what are the other questions you
10 think need to be asked?

11 MR. SHENKMAN: So starting with the first
12 question, whether the City retained Ms. McDonald as a
13 consulting expert, I don't think it should be limited to
14 just as a consulting expert, and it needs to also
15 include her company, Q2 Data Research.

16 And then in addition to the questions that
17 they ask here, I think it's appropriate to ask, did she
18 prepare a report or presentation? What was the subject
19 of that report or presentation? Who was the report or
20 presentation communicated to? Did she communicate her
21 findings? If so, to whom and when? And was the report
22 or findings confidential? And what measures were taken
23 to ensure its confidentiality?

24 MR. SCOLNICK: Your Honor, these questions are so
25 far invading the work product protection and the
26 privilege that we would object. I mean, we've sort of
27 bent over backwards to give everyone what I thought we
28 needed in terms of just the foundation to determine

1 whether Ms. Mc Donald was a consulting expert and, if
2 so, whether she'd be covered by the work product
3 protection and any conversation to be covered by
4 privilege.

5 But this -- we're going further. Assuming
6 all that is established, we're going to go further in
7 establishing what she did, who she talked to. These are
8 questions that she would not have to answer.

9 So basically, again, the law requires, as
10 Your Honor cited, a foundation for determining whether
11 there is work product protection. The questions that we
12 have agreed to answer would establish that if they're
13 answering affirmatively. Anything further is absolutely
14 protected, and it's invading the work product
15 protection, and it's frankly completely unnecessary for
16 what Plaintiffs purport to be trying to accomplish here,
17 which is just identifying whether Ms. Mc Donald was a
18 consultant and whether it be covered by the work product
19 protection.

20 MR. SHENKMAN: Your Honor, every one of the
21 questions that I just mentioned has to do with either
22 confidentiality of the communication, which is a
23 requirement for privilege, or who was it communicated
24 to, from, and whether it exists. None of those
25 questions go to the content of the report, the content
26 of the study, only the to, from, subject, and
27 confidentiality.

28 THE COURT: Well, isn't that what they said they

1 would do?

2 MR. SHENKMAN: Well, Your Honor --

3 THE COURT: To, from, date, I think is what they
4 also agreed to provide.

5 MR. SHENKMAN: If that was the case, then I don't
6 think we would have a dispute here, but I don't think
7 that the four questions that they propose answering
8 fully covers that.

9 MR. RUBIN: Subject matter.

10 THE COURT: Okay. Read them again. Read what
11 they agreed to present.

12 MR. SHENKMAN: They have here, A., whether it, the
13 City, retained Ms. Mc Donald as a consulting expert; if
14 so, when Ms. Mc Donald was retained; if so, who retained
15 Ms. Mc Donald; and, if so, for what purpose Ms. Mc
16 Donald was retained.

17 THE COURT: Okay.

18 MR. SHENKMAN: So I don't think that covers, you
19 know, whether a report or presentation exists and who it
20 was communicated to, if anyone, and it doesn't deal with
21 the confidentiality of that report or study.

22 THE COURT: Well, isn't that the natural result of
23 their relationship?

24 MR. SHENKMAN: It could be, except in this
25 particular instance this information is out there, that
26 this report occurred, Ms. Mc Donald's name is in the
27 newspaper. So, you know, if they didn't take --

28 THE COURT: What do you mean the information is

1 out there?

2 MR. SHENKMAN: Well, two Santa Monica newspapers
3 reported that the study that was raised in this
4 courtroom was actually done by Ms. Mc Donald. And so
5 whatever steps -- I don't know if they took any steps to
6 keep this report confidential, but it seems that --
7 well, it certainly isn't confidential anymore, and so
8 then the next question is did they take steps to
9 maintain --

10 THE COURT: Well, the report -- did they have a
11 copy of the report? Then it wouldn't be confidential.
12 But if they don't, I don't see how the fact that they
13 think there's a report makes it not privileged or work
14 product.

15 MR. SHENKMAN: Yeah. I believe the newspapers say
16 that they got that information from the City, so...

17 THE COURT: What? What did they get from the
18 City? That there's a report?

19 MR. SHENKMAN: That there's a report and it was
20 done by Karin Mc Donald.

21 THE COURT: Well, how does that somehow vitiate
22 or -- vitiate the privilege?

23 MR. SHENKMAN: It may not, as long as Defendant
24 took steps -- reasonable steps to maintain the
25 confidentiality.

26 MR. SCOLNICK: What could we learn from Ms. Mc
27 Donald about that? I mean, this would be like me
28 finding out that Plaintiffs hired a consulting expert

1 and the expert did a report and then all of a sudden I
2 claim that I get to call the expert in and ask questions
3 about what he or she did.

4 Again, let's go back to where we started,
5 Your Honor, which is we need a factual basis to
6 determine whether what Ms. Mc Donald did or didn't do
7 would be protected by the work product protection and
8 attorney-client privilege. The questions we suggested
9 would get us there.

10 These other ventures are just far outside
11 what is needed to make that factual determination. It's
12 just a fishing expedition that would get further and
13 further away from the factual foundation we made a
14 proffer for.

15 MR. SHENKMAN: Your Honor, I mean, certainly even
16 if the Court says, you know, the confidentiality, we
17 don't need to address that, there's still the to, from,
18 who it was communicated to, because it's not, as defense
19 counsel states, the same as if Plaintiffs had a
20 consulting expert that -- they didn't like the report so
21 they didn't use that expert.

22 This is a government body, a city that, you
23 know, has in the past, in '92, demonstrated an intent to
24 discriminate, as was argued before. If, in fact, this
25 report was presented to the City and the City then took
26 no action, that bears on the intent issue.

27 The only other thing that I would add, Your
28 Honor, I understand that the person that the City would

1 have answer these questions is Mr. Cardona. My
2 understanding is that Mr. Cardona joined the City of
3 Santa Monica's attorney's office in 2018; so he may not
4 himself have personal knowledge of Ms. Mc Donald's
5 retention and work.

6 MR. SCOLNICK: Well, Mr. Cardona is able to
7 provide factual foundation. He can talk to people. He
8 knows what's going on. He has communications. And so
9 he's going to make a satisfactory, factual foundation,
10 if Your Honor lets him do that, under the conditions
11 we've outlined.

12 So, again, this is all just kind of a
13 detour. We need to stick with what we proffered. If
14 Your Honor wants to know -- I mean, let -- we can --
15 Mr. Cardona can make the proffer, and if it turns out
16 that there was a consulting arrangement, Your Honor
17 wants to know whether the information was communicated
18 to the city council in closed session, he would be
19 willing to make that proffer, too.

20 That does not get -- that does not get --
21 again, it doesn't get into what the report was, whether
22 there was a report. And all these questions are just
23 farther and farther outside what we are willing to
24 proffer as just a basic factual foundation and all
25 that's required for the protection we're trying to
26 establish.

27 THE COURT: So what is the one additional thing
28 that you said could be answered, whether communications

1 were made in closed session?

2 MR. SCOLNICK: In closed session to the city
3 council, by the City attorney.

4 THE COURT: Okay. Yes, I think that's sufficient.

5 MR. SHENKMAN: Your Honor, as long as we get
6 the -- whether a report or presentation existed, made
7 when it was communicated with the council, and the
8 subject matter of it, that's fine.

9 MR. SCOLNICK: No, Your Honor. Whether a report
10 was done is not fine. Plaintiffs -- I showed you the
11 letter. Plaintiffs agreed we do not need to produce a
12 consulting expert report. We don't need to log it. We
13 don't need to produce it. That's not what we agreed to
14 in this case. It's not unnecessary.

15 MR. SHENKMAN: I think the Court's order on this
16 matter was clear. The existence of the report, as
17 opposed to its content, the existence is not privileged,
18 and so it should be required to say, yes, it exists and
19 the subject matter.

20 THE COURT: I'm satisfied with --

21 MR. SCOLNICK: Thank you.

22 THE COURT: -- this proffer.

23 MR. SCOLNICK: Thank you.

24 THE COURT: So you want to make a proffer?

25 MR. SCOLNICK: Are we good on the order?

26 THE COURT: Yes.

27 MR. SCOLNICK: Okay.

28 THE COURT: It's fine. So everything -- in

1 addition, communications, whether it's a report or
2 whatever the communication is, was done in closed
3 session is what --

4 MR. SCOLNICK: Thank you.

5 MR. CARDONA: Good morning, Your Honor. George
6 Cardona from the Santa Monica city attorney's office.

7 As Mr. Shenkman has noted, I was not in the
8 office at the time. However, I have reviewed records in
9 the city attorney's office and reviewed communications
10 between the people who were in the office at the time.

11 The information is this: The City attorney
12 for the City of Santa Monica retained Ms. Mc Donald
13 through her company, which Mr. Shenkman has named, Q2
14 Data and Research, LLC, which is her company, retained
15 her as a consulting expert.

16 That retention occurred after the complaint
17 in this case was filed. The complaint in this case was
18 filed on April 12th, 2016. The retention occurred
19 shortly after that, on or about April 18th, 2016. She
20 was retained by the City Attorney's Office for the
21 purpose of assessing the allegations in the complaint
22 and being in a position to provide legal advice to the
23 city council about that.

24 There was work done by Ms. Mc Donald. That
25 work was provided to the City Attorney's Office, which
26 retained it in confidence. That work was discussed with
27 the city council in closed session, the expectation that
28 it would remain in confidence, and the City Attorney's

1 Office has retained that work in confidence, maintaining
2 its confidentiality.

3 THE COURT: Okay. It's been in confidence ever
4 since?

5 MR. CARDONA: That is our understanding, yes.

6 THE COURT: Okay. All right. It seems to me this
7 is privileged. If you want to discuss it further, you
8 can, but I think we're done.

9 MR. SHENKMAN: The only thing that I would ask is
10 whether a report was done, whether it existed. And I
11 think beyond that --

12 THE COURT: I think they said she did provide
13 work. It was discussed in closed session. It's been
14 maintained in confidence since. At that point, it was
15 communicated in confidence and it's been maintained ever
16 since. I think that's sufficient.

17 MR. SHENKMAN: Thank you, Your Honor.

18 MR. SCOLNICK: Thank you, Your Honor.

19 THE COURT: Thank you.

20 Okay. Do we have Mr. Levitt?

21 MR. MCRAE: Yes.

22 MR. SHENKMAN: Yes, Your Honor.

23 MR. MCRAE: Your Honor, I'll be right back.

24 THE COURT: Okay.

25 THE WITNESS: Good morning, Your Honor.

26 THE COURT: Good morning. Have a seat. You don't
27 need to be resworn as long as you can tell me you
28 understand you're still under oath.

1 THE WITNESS: I do, Your Honor.

2 THE COURT: Let's wait for Mr. -- forgot his name.

3 MS. HENRY: McRae.

4 THE COURT: -- Mr. McRae to come back.

5 THE WITNESS: Of course.

6

7 (PAUSE IN THE PROCEEDINGS.)

8

9 THE COURT: Okay. We can get started.

10 MR. SHENKMAN: Thank you.

11

12 **DIRECT EXAMINATION (CONTINUED)**

13 BY MR. SHENKMAN:

14 Q. Professor Levitt, when we sort of abruptly
15 ended on Friday, we were talking about the available
16 remedies in this case. Do you recall that?

17 A. I do.

18 Q. Okay. And just to recap a little bit, we
19 were talking about how districts are the most common
20 remedy. Do you recall that?

21 A. Yes.

22 Q. Okay. And could you -- I think maybe we
23 were interrupted mid answer on this, but I believe you
24 were describing the features that make districts the
25 most common remedy. Do you recall that?

26 A. Yes.

27 Q. Okay. Can you describe what features those
28 are for us, please?

1 A. Of course. So I believe when we left off I
2 was discussing why it was that districts are the most
3 common remedy for dilution. The most straightforward
4 reason is that they're familiar. Members of the public
5 understand how to vote for candidates and districts.
6 That's how we vote for members of Congress, for members
7 of the state legislature. In many cities and many other
8 counties, that's how we vote for county supervisors, and
9 so in many areas those are common; so people understand
10 them.

11 Not coincidentally, those also happen to be
12 methods of election that voting systems are able to
13 accommodate quite easily; so most of the candidates on
14 any given citizen's ballot will be elected from single
15 member districts, and so the voting systems are sort of
16 built naturally to accommodate that. That's not to say
17 that others can't be accommodated, but districts are
18 very easy to implement using available -- the actual
19 machines used to cast and count ballots.

20 Districts are also particularly useful or
21 particularly powerful when most of or much of the
22 community of interest is concentrated in an geographic
23 area or when there are specific differences in the
24 organization of the community in a particular geographic
25 area. So if one part of the minority community is
26 localized and/or organized but other parts are not,
27 districts may help give that community voice in a way
28 that an at-large structure would not.

1 And the final reason that it's most common
2 is particularly when there's a socioeconomic difference
3 between the community of interest, between the minority
4 community and the surrounding area, districts can help
5 accommodate or can help alleviate some of the campaign
6 finance disparities.

7 So in a citywide election you have to
8 attempt to reach every voter or a large portion of
9 voters. You have to worry about a jurisdiction-wide
10 getting out the information. And in districts that's
11 simply a smaller number of people or a smaller
12 geographic area to talk to, it means that you can
13 effectively run a campaign with less money, having to
14 raise less money, needing less money and support.

15 Q. Okay. Are you aware of how much money is
16 typically spent in Santa Monica city council elections?

17 A. I am.

18 Q. Okay. Let's pull up Exhibit 295, please.

19 Okay. And, Professor Levitt, could you
20 describe what this document shows?

21 A. This is a spreadsheet or the results of a
22 spreadsheet, prepared at my direction, summarizing the
23 campaign finance filing statements from the California
24 F.P.P.C., the Fair Political Practices Commission.

25

26

27

28

1 (Exhibit Number 295, identified:
2 Summary of campaign finance filing
3 statements for Santa Monica
4 elections.)
5

6 MS. HENRY: Your Honor, may we have a copy of this
7 exhibit? I don't think I've seen it before. And
8 objection to lack of foundation.

9 MR. SHENKMAN: Your Honor, I think he was
10 describing the source of this information --

11 THE COURT: Okay. Let's get the foundation then.

12 MR. SHENKMAN: -- as the F.P.P.C.

13 MS. HENRY: Thank you.

14 THE WITNESS: Yeah, this is summary of the
15 individual campaign finance filings of candidates for
16 Santa Monica city council, Santa Monica school board,
17 Santa Monica College board, Santa Monica Rent Control.

18 THE COURT: You saying the filings, are you
19 referring to public filings?

20 THE WITNESS: Public filings, yes, ma'am. They
21 are -- in every election that -- for which are campaign
22 finance filing requirements, candidates will have to
23 file. Also, organizations that are supporting or
24 opposing those candidates will have to file, delineating
25 their expenses, their receipts taken in, their expenses
26 put out.

27 The -- these -- the summary that I asked
28 for referred to the elections in 2004 in Santa Monica,

1 in 2012, and in 2016. And this is -- it's simply a
2 summary of contributions and expenditures for the
3 various entities weighing in in those elections; so
4 candidates and the entities supporting them for each of
5 those four types of contests.

6 THE COURT: It doesn't tell us what year, though.
7 I don't think you typed those. Or does it?

8 THE WITNESS: I don't know that the chart does,
9 but the candidates -- so I don't know if the chart
10 itself does, but the candidates are the same candidates
11 that will be referenced in Dr. Lewis's work and in
12 Dr. Kousser's, and I can identify them for the Court if
13 that's useful.

14 THE COURT: Maybe that's a good idea.

15 BY MR. SHENKMAN:

16 Q. Okay. So on the first page, is this for
17 2004 city -- 2004 elections?

18 A. Yes.

19
20 (Exhibit Number 295-1, identified:
21 Re 2004 elections.)
22

23 BY MR. SHENKMAN:

24 Q. Okay. And the numbers up at the top, are
25 those the totals?

26 A. Those are the total amounts, either
27 contributions received or expenditures spent on behalf
28 of the candidates. That's correct.

1 Q. Okay. And let's go to 295, Page 5, please.

2 THE COURT: Is this still 2004?

3 MR. SHENKMAN: This next section is going to be
4 2012, Your Honor.

5 THE COURT: Okay. The next page is 2012?

6 MR. SHENKMAN: 295, starting at Page 5 is 2012.

7 THE WITNESS: May be helpful, Your Honor, Pages 1
8 through 4, I believe, correspond to the 2004 election --

9 THE COURT: Okay.

10 THE WITNESS: -- including school board candidates
11 and rent control.

12

13 (Exhibit Number 295-2 TO 295-4,
14 identified: Re 2004 elections.)

15

16 THE WITNESS: Starting with 2005 [sic], it's the
17 2012 election. And then I'm not sure about the page
18 numbers, but it might be helpful to delineate 2016.

19 MR. SHENKMAN: Your Honor, I believe 2016 starts
20 on Page 8 of the document.

21 THE COURT: Okay. Thank you.

22

23 (Exhibit Number 295-8, identified:
24 Re 2016 elections.)

25

26 MS. HENRY: Your Honor, may I also ask for a point
27 of clarification? On Page 5 here, this is the 2012
28 election? I guess the number at the top, across from

1 the name Davis, is that her complete personal --

2 THE WITNESS: Sorry.

3 MS. HENRY: I don't -- that doesn't appear to be
4 accurate to me.

5 THE WITNESS: Gleam Davis's total -- maybe it
6 might help to explain what it is Your Honor is looking
7 at, and this might help with counsel.

8 On Page 5 in particular, you can see that
9 the total amount spent in the city council race is
10 \$970,136 overall. That's not from Ms. Davis alone. The
11 total amount either which Ms. Davis raised or spent on
12 her behalf is the highlighted number, 187,041.61. So
13 that's the total amount either she raised or was spent
14 on her behalf. And if you add each of the highlighted
15 yellow totals, you'll arrive at the 970,000 for the city
16 council race in total.

17 And similarly, if you add all of the green
18 highlighted cells, you'll arrive at the school board
19 total. If you add all of the blue highlighted cells,
20 you'll arrive at the rent control total.

21 THE COURT: It's just a little confusing because
22 it's on the Gleam Davis line, so...

23 THE WITNESS: Yes, I can understand counsel's
24 confusion.

25 THE COURT: Right.

26 MR. SHENKMAN: Is it clear now, Your Honor?

27 THE COURT: Yes.

28 MR. SHENKMAN: Okay. Thank you.

1 BY MR. SHENKMAN:

2 Q. And so at the top of Page 5, those are the
3 totals for each of those elections?

4 A. In the 2012 election, there was a total of
5 \$970,000 and change spent on the city council race, yes.

6 Q. Okay. Let's go to Page 8, please.

7 And the top line, highlighted, beginning
8 with 403,000 and change for city council, are those the
9 totals for the 2016 election?

10 A. Yes. On Page 8, yes.

11 Q. Okay. So we've seen -- I think the first
12 one was 600,000 and --

13 THE COURT: What does N.F. stand for?

14 THE WITNESS: Not found. So I understand that
15 there were certain totals that were either sufficiently
16 small or were not sufficiently reported or that were
17 otherwise not able to be located.

18 THE COURT: Okay. Thank you.

19 BY MR. SHENKMAN:

20 Q. Okay. So we've looked at these three
21 elections and the city council total spending being
22 600,000 and change, 970,000, and 403,000 and change.

23 In your experience, is that a large amount
24 of money to be spent on a city council race in a city
25 the size of Santa Monica?

26 A. It is.

27 MS. HENRY: Objection, Your Honor. Vague and lack
28 of foundation.

1 THE COURT: Sustained. Lack of foundation.

2 MS. HENRY: I move to strike the answer.

3 THE COURT: Granted. The answer is stricken.

4 BY MR. SHENKMAN:

5 Q. Okay. So, Professor Levitt, have you had
6 an opportunity to study the amounts spent in city
7 council races in California in cities of similar size to
8 Santa Monica?

9 MS. HENRY: Objection, Your Honor. The amount of
10 money spent in city council elections in other
11 jurisdictions, those other than Santa Monica, are not
12 relevant in this case. What is relevant and at issue
13 here is whether or not Latino voting power is being
14 diluted in Santa Monica elections. And it's vague.

15 THE COURT: Overruled. You may answer.

16 THE WITNESS: I have, both in California and
17 outside of California.

18 BY MR. SHENKMAN:

19 Q. Okay. And based on that study, do you have
20 an opinion as to whether the amount spent in
21 Santa Monica city council elections is on the high side
22 or low side of what you've seen in other cities the size
23 of Santa Monica?

24 A. I do.

25 Q. What is that opinion?

26 A. It's large. It's quite a bit larger than
27 average for a city the size of Santa Monica. In cities
28 that are roughly 20,000 people, you might expect about

1 \$10,000 to be spent on a city council race and it scales
2 up from there.

3 That's not to say there are individual
4 races that are certainly -- where people spend less.
5 There are individual races where people spend more. But
6 to have -- for a city the size of Santa Monica, about
7 60,000 registered voters, to have \$900,000 spent, almost
8 a million dollars spent in a city council race, that's
9 quite a bit. You see totals like that on each
10 candidate's side in a congressional race. That's
11 unusual in a city council.

12 Q. And how large is a congressional district?

13 A. A congressional district is between 700,000
14 and 800,000 people.

15 The more usual amounts of money spent are
16 what you see here. And, again, it varies, but what you
17 see here in the school board and college board elections
18 may be a little bit higher than some of the years
19 represented, a little bit lower than some of the years
20 represented. But the city council number is
21 consistently higher than many other cities, not all
22 other cities, but many other cities Santa Monica's size.

23 Q. Okay. How does the -- how, if at all, does
24 the amount of money spent in Santa Monica city council
25 elections impact your opinion about the effectiveness of
26 districts in Santa Monica?

27 A. The amount of money spent in Santa Monica
28 makes it difficult to run and win city-wide,

1 particularly for a minority with -- of lower
2 socioeconomic status across the jurisdiction. Districts
3 would help alleviate that to some degree. So in a
4 city-wide election you generally need to reach at least
5 half of all of the voters and that can be an expensive
6 proposition.

7 In addition, you have to reach the voters
8 in a way that gets the message through. And as this
9 table shows, individual candidates raised between --
10 many of them -- there are some stark anomalies --
11 between 30 and \$60,000.

12 But there's a significant independent
13 expenditure component to each of these elections, and
14 particularly if you're fighting against the prevailing
15 organizations that are spending independently, it's
16 going to take even more money to get the message out if
17 you don't have a similar independent expenditure
18 organization weighing in on your side.

19 In a district scenario, it's possible to
20 walk the streets more economically. You can have
21 volunteers who are willing to walk the streets, rather
22 than needing to pay canvassers. Generally, the amount
23 of money that you'll spend to reach each voter is the
24 same, but the number of voters is less and so costs
25 should drop dramatically. In order to mail something to
26 every household, you have to reach fewer households than
27 you would if you were mailing city-wide.

28 Q. Thank you.

1 Have you had an opportunity -- an occasion
2 to evaluate the pattern in election performance among
3 cities that have switched from a at-large system to a
4 district system as a result of voting rights litigation?

5 A. I have, generally.

6 Q. And what have you found in that study?

7 A. I found --

8 MS. HENRY: Objection, Your Honor. Relevance. In
9 other jurisdictions, whether they've switched to a
10 different election -- method of election or not is not
11 relevant to whether or not a different, an alternate
12 method of election will alleviate any, if any, voting
13 dilution in Santa Monica. There are different
14 demographics in different jurisdictions, different
15 populations of minority groups, different minority
16 groups at issue, and none of those are analogous to the
17 City of Santa Monica.

18 MR. SHENKMAN: Well, Your Honor, I think
19 Defendant's counsel exaggerates the differences between
20 Santa Monica and other places. Santa Monica is not
21 unique. It's a Southern California city.

22 What I'm attempting to do is lay the
23 foundation for Professor Levitt's opinions about whether
24 districts would be an effective remedy in Santa Monica
25 and part of that is a comparison of what we've seen
26 elsewhere.

27 If Your Honor recalls, in the cities -- in
28 excluding us from putting on the live testimony of

1 Sergio Farias and Juan Carrillo in particular, the
2 Court's response was, well, just have Justin Levitt
3 provided.

4 THE COURT: Those were citizens, right, from other
5 districts like Palmdale and somewhere else?

6 MR. SHENKMAN: Those were city council members.

7 THE COURT: Oh, city council members.

8 MR. SHENKMAN: Yes, Your Honor.

9 MS. HENRY: Your Honor, in addition to being
10 irrelevant because those jurisdictions do not have the
11 same demographics as Santa Monica and cannot translate
12 their change in the method of election to Santa Monica,
13 it's also speculation as to what would happen in the
14 City of Santa Monica. And he lacks foundation to speak
15 to those facts in another jurisdiction in which he
16 doesn't reside.

17 And then the -- oh, yes. And the Court
18 never said that Mr. Levitt could provide the testimony
19 of those other witnesses but, rather, that he could
20 provide an opinion about what method of election he
21 believes should operate in the City of Santa Monica.

22 MR. SHENKMAN: And that's exactly what he's doing.

23 MS. HENRY: No, Your Honor. Respectfully, he's
24 opining about what's going on in a different
25 jurisdiction, with different demographics, different
26 minority populations at issue, and how they have or have
27 not switched to a different method of election, not what
28 he believes should be operating in the City of Santa

1 Monica.

2 THE COURT: Well, he needs some foundation for
3 that, for that opinion. So where does he look? He has
4 to look to other places in order to lay that foundation.
5 So I'll overrule the objection.

6 You may answer.

7 MS. HENRY: Thank you, Your Honor.

8 MR. SHENKMAN: Do you recall what the question
9 was?

10 THE WITNESS: I don't. I apologize, Counsel.

11 BY MR. SHENKMAN:

12 Q. So I'll try to do my best to ask the same
13 question.

14 What have you found in studying those other
15 jurisdictions that have gone from at-large to
16 district-based elections as a result of litigation?

17 A. I found that they generally provide more
18 opportunity to the minority population that triggered
19 the litigation; that the extent of that opportunity
20 obviously differs by jurisdiction.

21 It is true that there are different
22 demographics, different levels of organization,
23 different levels of turnout, different socioeconomics in
24 each jurisdiction, but there has been a pattern or trend
25 of more opportunity, and occasionally you see that in
26 the election results.

27 Q. Okay. Let's talk about a couple of those
28 jurisdictions in Southern California. Okay?

1 Are you familiar with the City of Palmdale?

2 A. I am.

3 Q. Okay. And I think you previously testified
4 that --

5 MS. HENRY: Your Honor, sorry to interrupt. May I
6 just have a continuing objection on this line of
7 questioning?

8 THE COURT: Can we get a jurisdiction that's
9 similar to Santa Monica? Because not sure Palmdale is
10 similar. So I'll sustain it as to Palmdale.

11 MR. SHENKMAN: Okay.

12 THE COURT: Unless you can lay that foundation
13 with Palmdale.

14 MS. HENRY: Thank you.

15 MR. SHENKMAN: I think in many respects Palmdale
16 is similar to Santa Monica and in other respects it's
17 not.

18 THE COURT: Counsel, you're not the witness. You
19 need to get that through the witness.

20 MR. SHENKMAN: Sure.

21 BY MR. SHENKMAN:

22 Q. Okay. You said you're familiar with the
23 City of Palmdale?

24 A. I am.

25 Q. I believe earlier you said that you
26 actually testified in the California Voting Rights Act
27 case against the City of Palmdale; correct?

28 A. I did.

1 Q. Do you recall the approximate population of
2 the City of Palmdale?

3 A. I don't recall the global size of the City
4 of Palmdale. I know the demographics of the individual
5 districts that were created, but I don't recall the
6 overall size.

7 Q. Okay. And what about the demographics of
8 the individual districts? Do you recall?

9 A. I remember in particular that there was one
10 district that was created that, in that case, happened
11 to be majority citizen voting age population Latino. I
12 believe it also had a bare majority of registered voters
13 who were Latino. And the election in -- I'm sorry.
14 Forgive me.

15 The registered voters in Palmdale were not
16 actually majority Latino. They were --

17 Q. And that's in that particular district?

18 A. In that particular district, yeah. Sorry.
19 The jurisdiction as a whole, Latinos were neither
20 majority of the citizen voting age population nor a
21 majority of the registered voters.

22 The district was drawn in particular to
23 respond to concerns under the California Voting Rights
24 Act. That district had a majority -- bare majority of
25 Latino voting age population, had a substantial portion
26 of Latino registered voters, and I believe in the first
27 election after the districts were drawn, that that
28 district actually elected a Latino candidate, Mr. Juan

1 Carrillo.

2 MS. HENRY: Your Honor, I would move to strike and
3 renew my objection to this line of questioning as to the
4 City of Palmdale.

5 As we heard from other experts in this
6 case, the best district that can be drawn in the City of
7 Santa Monica is 30 percent C-VAP. And Mr. Levitt has
8 just testified that in the City of Palmdale the district
9 that was drawn was majority C-VAP, which is above
10 50 percent.

11 Moreover, the City of Palmdale is three
12 times the size of the City of Santa Monica in terms of
13 Latino voting population. And for those reasons I would
14 move to strike the last answer as irrelevant.

15 MR. SHENKMAN: Well, Your Honor, I think the next
16 city that I'd like to ask the witness about I think is
17 probably closer to Santa Monica than Palmdale, but
18 there's never going to be any city that's identical.

19 THE COURT: Sure, I understand that. I'm going to
20 sustain the objection with respect to Palmdale, but you
21 can ask about this other city.

22 MS. HENRY: Thank you.

23 BY MR. SHENKMAN:

24 Q. Let's talk about San Juan Capistrano, okay?
25 Are you familiar with the City of San Juan Capistrano?

26 A. I am.

27 Q. And did San Juan Capistrano at some point
28 switch from at-large elections to district elections?

1 A. It did.

2 Q. Was that in response to litigation?

3 A. It was.

4 Q. All right. When San Juan Capistrano drew
5 its districts, were there any districts that were a
6 majority citizen voting age population Latino?

7 A. No.

8 Q. Okay. And in the district election held by
9 San Juan Capistrano, in those districts what occurred?

10 A. I'm sorry?

11 MS. HENRY: Objection.

12 MR. SHENKMAN: I'll withdraw the question. It was
13 probably vague so that's --

14 MS. HENRY: Well, I just would object again on
15 relevance and lack of foundation. He hasn't established
16 that the majority -- or the district at issue in that
17 case is analogous here. As I understand it, the City of
18 San Juan Capistrano had a district that was 44 percent
19 Latino voting age population in the district at issue.

20 And here again, Mr. Ely and Dr. Morrison
21 have testified that the best district that's possible is
22 30 percent, which is not analogous to the City of Santa
23 Monica; and, therefore, I would object on relevance.

24 MR. SHENKMAN: Well, Your Honor, not to be picky,
25 it is a little bit over 30 percent, but the point is
26 that it's not a majority Latino. And, you know, I don't
27 know that we're going to get the exact percentage. We
28 have the data that we have and that's a 43 percent

1 district in San Juan Capistrano, not a Latino majority
2 district, and how that performed is certainly relevant
3 here.

4 THE COURT: Okay. I'm going to overrule the
5 objection.

6 MS. HENRY: Thank you, Your Honor.

7 BY MR. SHENKMAN:

8 Q. Has San Juan Capistrano held a district
9 election?

10 A. Yes.

11 Q. How many?

12 A. I believe it's held one. I believe another
13 is coming.

14 Q. And that one was in 2016; correct?

15 A. Correct.

16 Q. And what was the -- in your understanding,
17 what was the largest proportion Latino district in San
18 Juan Capistrano?

19 A. I believe that the district in question,
20 the district of the highest proportion of Latino
21 minorities, was 44 percent Latino citizen voting age
22 population. I believe that the registered voter
23 population was somewhere in the 20s.

24 Q. In the 20s?

25 A. I believe it was about 22 percent
26 registered voter population --

27 Q. Okay. And --

28 A. -- who were of Latino descent.

1 Q. Okay. And who prevailed in that district
2 in 2016 that was 44 percent Latino C-VAP but only 20
3 something percent Spanish surname registration?

4 A. Sergio Farias prevailed. He's now the
5 mayor of San Juan Capistrano.

6 Q. Okay. And did Mr. Farias run in any
7 previous at-large elections?

8 A. I believe that he did.

9 Q. Okay. And what was the result in -- do you
10 recall when he ran in that previous at-large election?

11 A. I believe it was shortly before the 2016
12 election, but I can't say exactly when.

13 Q. And what was the result when Mr. Farias ran
14 in the at-large system?

15 A. He lost.

16 Q. So he lost in the at-large system and then
17 won in the district system?

18 A. Correct.

19 Q. Thank you.

20 Are you familiar with the City of Highland?

21 A. I am.

22 Q. And the City of Highland also switched from
23 at-large to district elections; is that correct?

24 A. It did.

25 Q. And how many election cycles has Highland
26 had in that district system?

27 MS. HENRY: Objection, Your Honor. Lack of
28 foundation. We haven't established that the City of

1 Highland is analogous to the City of Santa Monica based
2 on C-VAP district --

3 THE COURT: Okay. Sustained. A little more
4 foundation.

5 MS. HENRY: Thank you, Your Honor.

6 BY MR. SHENKMAN:

7 Q. Okay. The City of Highland adopted a
8 district election system; correct?

9 A. It did.

10 Q. Okay. And are you familiar with the
11 demographics of those districts?

12 A. I am, some.

13 Q. Could you describe demographics in terms of
14 Latino proportions of those districts?

15 A. At least one of the districts was majority
16 Latino citizen voting age population. I believe there
17 was a second district that was drawn that was not
18 majority Latino citizen voting age population.

19 MS. HENRY: Your Honor, I would move to -- well,
20 not to strike the last answer.

21 Your Honor, I object on relevance to this
22 line of questioning because the City of Highland, as
23 Mr. Levitt has just testified, has a majority Latino
24 population -- citizen voting age population district,
25 which we've heard from Mr. Ely and Dr. Morrison is not
26 possible in the City of Santa Monica. The best possible
27 district is 30 percent C-VAP.

28 MR. SHENKMAN: Your Honor, I think if you'll allow

1 me little bit of leeway, where I'm going with this is
2 how the district that was not a Latino majority district
3 performed in Highland.

4 MS. HENRY: Your Honor, just further objection on
5 that district. He hasn't elicited -- Plaintiffs'
6 counsel hasn't elicited from Mr. Levitt what size the
7 second district in the City of Highland was.

8 THE COURT: Okay. Let's get there.

9 BY MR. SHENKMAN:

10 Q. Okay. What proportion Latino citizen
11 voting age population is that non-Latino majority
12 district that you mentioned?

13 A. I believe it's in the 40s, but I'm not
14 entirely sure where in the 40s.

15 MS. HENRY: Your Honor, I would renew my objection
16 as to relevance. We don't know whether it was
17 49 percent, 48 percent. And to the extent it is as
18 close to 50 percent as that, it's not relevant to or
19 analogous to a district that can be drawn in the City of
20 Santa Monica, which is only 30 percent at best.

21 MR. SHENKMAN: Your Honor, the point that they
22 made on the summary judgment motion, and I believe a
23 motion in limine that was essentially won for nonsuit,
24 is that if you can't draw a Latino majority district,
25 you lose.

26 And what I'm trying to elicit from this
27 witness is that districts, even when there is not a
28 Latino majority, even under C-VAP, that they have been

1 effective in other places.

2 And, you know, for example, in San Juan
3 Capistrano the registered voter pool in that district
4 may even be lower than what we have in Santa Monica.
5 You know, in Santa Monica Latinos are registered at a
6 much higher rate than in San Juan Capistrano, and, you
7 know, if we need to, we can discuss all the reasons why
8 that is the case.

9 But, you know, if you're going to look
10 somewhere, you got to look at the, you know, relatively
11 discrete body of cities that have gone from an at-large
12 to a district-based election system in Southern
13 California and how they performed.

14 MS. HENRY: Your Honor, respectfully, Plaintiffs'
15 counsel has misrepresented our argument. But
16 regardless, what is relevant here is what's happening in
17 the City of Santa Monica and whether a remedy of a
18 district-based method of election would alleviate the
19 alleged dilution that Mr. Levitt and Plaintiffs' counsel
20 contends is occurring there.

21 And to the extent they are analogizing to
22 different jurisdictions that do not have the same
23 demographics as the City of Santa Monica, and where one
24 can create a majority or near majority C-VAP citizen
25 voting age population Latino district, those
26 jurisdictions are not analogous to the City of Santa
27 Monica and say nothing about whether any such district
28 will be effective in the City of Santa Monica, which is

1 why they are irrelevant.

2 THE COURT: Overruled.

3 MS. HENRY: Thank you, Your Honor.

4 BY MR. SHENKMAN:

5 Q. I forgot what the question was.

6 THE COURT: It was 40 percent C-VAP.

7 THE WITNESS: Yes.

8 THE COURT: And he wasn't sure where in the
9 40 percent range it fell, I think is where we left off.

10 THE WITNESS: Thank you, Your Honor.

11 BY MR. SHENKMAN:

12 Q. Okay. And in 2016, what was result of the
13 district election in that non-Latino majority district?

14 A. The Latino candidate prevailed.

15 Q. Okay. And are you familiar with the
16 election history in the City of Highland?

17 A. Yes.

18 Q. Okay. Prior to 2016, had any Latino been
19 elected to the city council of Highland?

20 A. I don't believe so.

21 Q. Are you familiar with the City of Anaheim?

22 A. Yes.

23 Q. And Anaheim switched from at-large to
24 district elections; is that correct?

25 A. Yes.

26 Q. Okay. Was there a -- was there a district
27 that had the majority Latinos in that city?

28 A. There was.

1 Q. Okay.

2 A. After -- after the switch, naturally.
3 Anaheim is not itself majority Latino.

4 MS. HENRY: Your Honor, I would just object.
5 Again, renew my objection to this line of questioning as
6 to the City of Anaheim, where you can create a majority
7 Latino district, which is not possible in the City of
8 Santa Monica, where the best possible district is
9 30 percent.

10 MR. SHENKMAN: Your Honor, if the Court's rule on
11 this issue is we can talk about places where it's not a
12 Latino majority, Anaheim would not fall under that, and
13 if that is in fact what the Court wants to hear about,
14 is only situations where it's not a Latino majority,
15 then I'll move on.

16 THE COURT: Okay. I'm going to sustain the
17 objection.

18 MS. HENRY: Thank you, Your Honor.

19 BY MR. SHENKMAN:

20 Q. Let's pull up Exhibit 261, please.
21 Professor Levitt, are you familiar with
22 Exhibit 261?

23 A. Yes.

24 Q. What is it?

25 A. I believe that it's an exemplary map. It's
26 one potential map of certainly the City of Santa Monica
27 that I'm familiar with. I believe this is a map that
28 Mr. Ely prepared showing seven potential districts

1 within the City.

2 Q. Okay. And are you familiar with the
3 demographics of these districts?

4 A. Roughly.

5 Q. Okay. Let's go to Exhibit 262, please.

6 And, Professor Levitt, is it your
7 understanding that this table describes demographics of
8 the various districts from Mr. Ely's seven-district
9 plan?

10 A. Yes, with the caveat that I believe that
11 those percentages are taken from a survey done over the
12 years 2011 to 2016, and so they represent the
13 demographic range over that period.

14 Given growth patterns in the minority
15 population as compared to growth patterns in the rest of
16 the population, it's likely but uncertain that the
17 Latino population is larger. Where the Latino
18 population is situated is likely that there are -- is a
19 greater percentage of Latinos now. But this is, as I
20 understand it, Mr. Ely's calculations, given the data
21 that we have.

22 Q. Okay.

23 THE COURT: Can I ask you a question? Is there a
24 gentrification in Santa Monica? What we call
25 "gentrification"?

26 THE WITNESS: There -- there is gentrification
27 across L.A. County generally, and so also in
28 Santa Monica. My understanding is that the affordable

1 housing in Santa Monica is concentrated in particular
2 neighborhoods. Those tend to be -- the neighborhood
3 most affected tends to be the Pico Neighborhood most
4 under discussion here.

5 And so there hasn't been -- my
6 understanding is there's not been the same dispersion of
7 the Latino population that -- the population with lower
8 socioeconomic status. There's not been the dispersion
9 around the City that you might expect with
10 gentrification elsewhere.

11 THE COURT: I just wonder if there's some kind of
12 offset to the increase in the growth with
13 gentrification, families leaving the area.

14 THE WITNESS: My understanding is there's little
15 place for them to go, particularly if they want to stay
16 within Santa Monica.

17 THE COURT: Okay.

18 BY MR. SHENKMAN:

19 Q. Have you seen a -- any trend in terms of
20 the Latino proportion of Santa Monica over the years?

21 A. It's growing and it is -- it is growing --
22 unsurprisingly reflecting general trends among the
23 Latino population in California, it's growing at a rate
24 that's faster than -- proportionally than other
25 populations in Santa Monica.

26 Q. Okay. And that's notwithstanding the
27 gentrification that is going on in Santa Monica and
28 elsewhere?

1 A. It -- it is growing even -- it is growing
2 on net, even considering the effects of gentrification,
3 yes.

4 Q. Okay. Thank you.

5 And is there anything in this table that
6 affects your opinion about the effectiveness of
7 Mr. Ely's seven-district plan?

8 A. There's certainly data that's relevant to
9 the effectiveness. The 30 percent -- voting age
10 population, 30 percent, citizen voting age population,
11 30.4 here, potentially a little bit more, potentially a
12 little bit less, is within the zone of what the Supreme
13 Court has generally called an "influence district." So
14 it provides an opportunity for that population to
15 substantially affect the outcome of an election.

16 MS. HENRY: Objection, Your Honor. Move to strike
17 that last statement about what the Supreme Court has
18 ruled as an influence district. As we've previously
19 objected, this witness is not able to provide opinions
20 about legal standards and what the law provides.

21 MR. SHENKMAN: I don't think his comment was about
22 what the law provides. I think his remark was simply an
23 understanding of the phrase "influence district," and
24 he's providing his understanding and his usage of that
25 phrase.

26 THE COURT: Okay. Overruled.

27 THE WITNESS: So the 30 percent is generally
28 within a zone of a substantial population, a large

1 population able to substantially influence the election
2 of a candidate of choice.

3 BY MR. SHENKMAN:

4 Q. Okay. And you mentioned the phrase
5 "influence district." Could you provide a little bit of
6 an explanation about what you mean by that?

7 MS. HENRY: Objection, Your Honor. It's to the
8 extent it calls for a legal conclusion. This witness,
9 again, is an expert in methods of election but not able
10 to opine on what the legal standards are for an
11 influence district.

12 THE COURT: Overruled.

13 THE WITNESS: So an influence district is merely a
14 district in which a target population, a minority
15 population of interest, has the ability to substantially
16 affect the outcome of the election, even if they're not
17 solely in the driver's seat alone. So it's a community
18 that candidates feel they need to respond to. They can
19 swing the outcome of an election even if they are not
20 solely able to drive the result simply by their own
21 turnout.

22 BY MR. SHENKMAN:

23 Q. Did you consider the Latino citizen voting
24 age population of districts other than district one?

25 A. I did. I would say that each of the
26 districts, at least in this plan, other than district
27 one, provides a population, and that population will
28 have some impact on the election. But I would not call

1 those populations large enough to substantially
2 influence the result of the election.

3 Q. Okay.

4 A. And those populations in districts two
5 through seven, certainly no voter can be ignored but
6 they're not -- they're not in any sort of driver's seat
7 with the result of an election typically.

8 THE COURT: Talking about other non-White
9 populations?

10 THE WITNESS: Sorry. The -- I understood the
11 question to be about the Latino population in
12 particular.

13 THE COURT: Okay.

14 THE WITNESS: But it would also be the case for --
15 for any of the other non-White populations in
16 particular, and I don't think I've seen evidence
17 indicating that those other populations vote
18 consistently together with enough regularity to make
19 them an affecting voting bloc together.

20 So I wouldn't -- without further evidence,
21 I wouldn't just assume that the African-American
22 community and the Asian community vote together as one
23 bloc. None of the other Latino populations are
24 sufficiently sizable to really substantially influence
25 an election in that district.

26 BY MR. SHENKMAN:

27 Q. Okay. In district number one, the
28 non-Hispanic White citizen voting age population,

1 according to this table, is 45 percent. Do you see
2 that?

3 A. I do.

4 Q. Is that important to your opinion about the
5 effectiveness of this district plan?

6 A. It means that the non-Hispanic White
7 population is not a majority of the district. I would
8 expect that they would win some elections, in fact, many
9 elections, but I would expect that the Latino electorate
10 would have the opportunity to influence the decision of
11 the remaining voters.

12 That is, I expect a substantial Latino
13 turnout in District One would be able to swing an
14 election perhaps among candidates favored by the
15 non-Hispanic White majority, but that the non-Hispanic
16 White majority would not as a bloc be able to win every
17 single election.

18 Q. Okay. Is it fair to say that at 30 percent
19 or 31 percent the Latino proportion has more influence
20 than at 13.6 percent?

21 A. Yes.

22 Q. Okay. And what is the Latino citizen
23 voting age population of the City of Santa Monica as a
24 whole?

25 A. As I understand, again, with the same
26 caveats about the numbers, that they arrive -- I believe
27 these are Dr. Morrison's numbers -- they arrive from a
28 survey over five years. I believe it's approximately

1 13.2 percent.

2 Q. Okay. And --

3 A. Of citizen voting age population.

4 Q. And in district two, the Latino citizen
5 voting age population is 13.9 percent. Do you see that?

6 A. I do.

7 Q. And in District Seven it's 13.5 percent?

8 A. I do.

9 Q. All right. So those are both right around
10 the -- the proportion in the City as a whole?

11 A. Yeah. And in those districts I would
12 expect Latinos to similarly have a lack of electoral
13 success. Looking at those demographics, without a lot
14 more information, I would be very skeptical of a chance
15 of Latino success in winning elections in those
16 districts, as -- as in the City of Santa Monica.

17 Q. So it's the same in those districts as it
18 is currently in the City of Santa Monica?

19 A. Roughly.

20 Q. Did you consider the organization of
21 Latinos within the Pico Neighborhood in forming your
22 opinions?

23 A. I did.

24 Q. Is there anything in particular that you
25 looked at in terms of that organization?

26 A. There was. So it's important in assessing
27 whether districts are an appropriate remedy to consider
28 not only the demographics but the critical organization.

1 And in particular, if there's a disparate political
2 organization, if the citizens -- if minority citizens in
3 one part of the city are particularly organized, that
4 makes a district remedy particularly appropriate. If
5 minority citizens are equally organized throughout the
6 City, that may make another remedy more appropriate.

7 So the -- as I understand it, in the Pico
8 Neighborhood minority citizens in particular are -- are
9 quite a bit more organized than Latino citizens
10 throughout the rest of Santa Monica.

11 One fact that bears on that is the recent
12 2016 Democratic primary election in California, and in
13 Santa Monica in particular. As in much of the rest of
14 California and much of the rest of the country, Latino
15 citizens generally in California favored Secretary
16 Clinton in the Democratic primary, and in Santa Monica
17 Latino citizens and the rest of Santa Monica favored
18 Secretary Clinton.

19 But in the Pico Neighborhood, in this area,
20 as I understand it, Mr. de la Torre was the chair of
21 Latinos for Bernie Sanders, and that's relevant because
22 he was able to mobilize the citizens of the area to vote
23 for Mr. Sanders in a way that, had the election been
24 districted, Mr. Sanders would have won the area around
25 the Pico Neighborhood.

26 Obviously it wasn't districted, but
27 Mr. Sanders won the Democratic primary in that area and
28 lost Santa Monica-wide, and to me, that -- that speaks

1 at least as an example of the organization possible in
2 that community.

3 It's not to say the organization will
4 respond that way for every single candidate, but it's a
5 powerful example, given the prominence of organizing the
6 presidential election.

7 Q. Okay. So I -- did you learn about
8 Mr. de la Torre's involvement in the Sanders campaign
9 from a newspaper article?

10 A. From sources on the web, yes.

11 Q. Okay. Let's put up one of those.
12 Exhibit 208, please.

13 And, Professor Levitt, I'll just ask, is
14 this one of the newspaper articles that you reviewed?

15 A. It seems to be, yes. This is familiar.

16 Q. Okay. And it described Mr. de la Torre's
17 work on -- with the Sanders campaign?

18 A. It does.

19 Q. Thank you.

20
21 (Exhibit Number 208, identified:
22 Newspaper article.)
23

24 BY MR. SHENKMAN:

25 Q. Let's go to Exhibit 256, please.

26 And, Professor Levitt, if you could
27 describe to us what this map shows.

28 A. This map I believe was put together by

1 Mr. Ely. It shows the simple results in the
2 presidential primary by precinct. Some of the precincts
3 are wholly within Santa Monica, some are not wholly
4 within Santa Monica.

5 Sorry, they're all wholly within
6 Santa Monica. Some of the precincts are wholly within
7 Mr. Ely's demonstrative district, some are not.

8 Q. Okay. And the black line outlining the
9 one, that's his illustrative district?

10 A. As I understand it, that's the illustrative
11 Pico Neighborhood district that he's drawn.

12 Q. Okay.

13 A. The precincts, the small -- well, green
14 lines on the screen or gray lines on the exhibit, the
15 thin lines represent each individual precinct. The
16 precincts that are a pleasing beige on screen or white
17 or gray on the exhibit paper voted for Secretary
18 Clinton. The precincts that are dark green on the
19 screen or a darker gray on the paper voted for
20 Mr. Sanders, Senator Sanders.

21 And this is -- this is what I was talking
22 about and showing, the greater -- or the concentrated
23 organization of the Latino community in particular.

24 These results aren't just the Latino
25 community, but they show -- they reflect the support of
26 the Latino community in ways that drive what would have
27 been an electoral win had that election been taken place
28 in districts.

1 Q. Based on what we've discussed and anything
2 else, do you have an opinion on whether Mr. Ely's
3 seven-district map would enhance Latino voting power
4 over the current system in Santa Monica?

5 A. Over the current system, yes, I believe
6 that it would.

7 Q. Thank you.

8 Let's move to cumulative voting, okay?

9 A. Okay.

10 Q. Could you explain to the Court what
11 cumulative voting is, and if you'd -- like you've got
12 some markers and the white easel if you need it.

13 A. Sure.

14 And it may actually be easier, Your Honor,
15 if I show --

16 THE COURT: Yes, of course.

17 THE WITNESS: -- how the ballot actually works.

18 THE COURT: Hold on. We should make that an
19 exhibit. I'm not sure which number we're at, but 322 I
20 think is where we are.

21 Would you write the number "322" on the
22 bottom right of that paper?

23 THE WITNESS: Of course.

24 THE COURT: You're going to write on that paper,
25 right?

26 THE WITNESS: Yes, if that's --

27 THE COURT: Yes.

28 THE WITNESS: -- all right with Your Honor.

1 THE CLERK: Did you say 322?

2 THE COURT: Yes, uh-huh.

3

4 (Exhibit Number 322, identified:

5 Diagram of Mr. Levitt.)

6

7 THE COURT: Okay. You may start.

8 THE WITNESS: So in a cumulative voting system --

9 we've been speaking about districts. A cumulative
10 voting system would work -- so in the entire City of
11 Santa Monica the jurisdiction would stay as a whole
12 jurisdiction rather than subdividing. But instead of
13 the current system -- in the current system, if you
14 have -- if you have four seats up (indicating) -- and
15 I'll get to what happens if you have five, six or
16 seven -- if you have four seats up, as currently happens
17 in Santa Monica's presidential election years, then
18 every voter can vote for every seat, and the majority in
19 the City of Santa Monica, if they are cohesive, will
20 reliably win every election.

21 In a cumulative voting system, if you have
22 four seats up and various candidates, every voter has
23 four votes, but he or she can spend those four votes
24 however she wishes.

25 THE COURT: So you could throw your votes behind
26 one candidate?

27 THE WITNESS: Correct. Exactly right, Your Honor.

28 So you can decide that you want to spend

1 all four votes on this particular candidate. In the
2 alternative, you can spend two votes on one candidate
3 and one vote on each of two others, or any combination
4 of four votes.

5 And what that accomplishes is it allows the
6 majority to win most elections, but it allows strong
7 minority preferences of whatever kind, racial or ethnic
8 minorities, political minorities, what have you, but
9 strong minority preferences to win elections as well.
10 And there's a formula that allows you to tell exactly
11 how many modes you need under the most adverse
12 conditions.

13 If the opposition is entirely arrayed
14 against you and distributes their votes perfectly
15 strategically, you know that you're going to win an
16 election with what's called the "threshold of
17 exclusion." That in a four-vote election is going to be
18 a fifth of the vote.

19 So if you have 20 percent of the votes, you
20 are guaranteed to win one of the seats in a four-seat
21 election. If everybody votes perfectly strategically on
22 your side and the other side votes perfectly
23 strategically against you, you will always win.

24 THE COURT: Even in a racial polarized situation?

25 THE WITNESS: Even when it's racially polarized,
26 the fact of an alternative way of accumulating votes
27 like this says that worst-case scenario, everything goes
28 wrong against me, the opposition puts up one candidate

1 and only one candidate in every seat and they get all of
2 their voters to show up and all of them vote with
3 perfect strategy, I still know that if I have 20 percent
4 of the votes in this election, I can win at least one
5 seat.

6 If everything doesn't go perfectly for the
7 other side, for the opposition, you may actually win an
8 election with far less than 20 percent of the vote. But
9 this is worst-case scenario. Twenty percent of the
10 votes in a four-seat election is guaranteed.

11 As the number of seats go up, the threshold
12 drops, and so for a seven-seat election --

13 THE COURT: So as the number of seats increase,
14 what's the outcome?

15 THE WITNESS: The outcome is that the threshold
16 drops. The formula --

17 THE COURT: The 20 percent part?

18 THE WITNESS: The 20 percent drops.

19 MR. SHENKMAN: You can use the other page too if
20 you'd like.

21 THE WITNESS: We should use another page? I don't
22 want to -- I'm not sure that the entire series of pages
23 will be Exhibit 322.

24 THE COURT: Yes, they will be.

25 THE WITNESS: Okay. So the formula for really any
26 set of elections, but particularly one of these
27 alternatives, is one over the number of seats, n plus
28 one. So in a three-seat election, if you have

1 25 percent of the votes in a cumulative voting system,
2 that's a guarantee. That worst-case scenario, everybody
3 else votes perfectly strategically with 25 percent of
4 the votes, I can make sure that my candidate wins. Even
5 under perfect racial polarization.

6 In a four-seat election, it's 20 percent.
7 One over five. In a seven-seat election, it's
8 12.5 percent.

9 And if the opposition does not vote
10 perfectly strategically, if they run more candidates
11 than just one per seat, if people split their votes, it
12 may be possible to win with fewer than 12.5 percent of
13 the votes. But at that point it's guaranteed.

14 BY MR. SHENKMAN:

15 Q. Has cumulative voting been ordered in
16 Federal Voting Rights Act cases, to your knowledge?

17 A. It has. It's been both adopted voluntarily
18 by jurisdictions and been ordered as a remedy in
19 litigation. About -- between 60 and 70 smaller
20 jurisdictions use it at the moment.

21 Q. Okay. Are you familiar with the Village of
22 Port Chester?

23 A. I am.

24 Q. Is that one of the jurisdictions that
25 employs cumulative voting?

26 MS. HENRY: Objection, Your Honor.

27 THE WITNESS: Yes.

28 MS. HENRY: To the extent that the Village of Port

1 Chester is not analogous to the City of Santa Monica
2 based on demographics, the minority population at issue,
3 the size of the minority group at issue, it is
4 irrelevant to this case and whether -- what remedy might
5 be appropriate if Plaintiffs are able to establish all
6 of the elements under the C.V.R.A.

7 MR. SHENKMAN: I wasn't intending on having
8 Professor Levitt compare Port Chester and its -- and the
9 effectiveness of cumulative voting there to Santa
10 Monica. What I was trying to elicit is that Port
11 Chester did adopt this and what in fact they did.

12 Because under Howard V. City of Palmdale,
13 the appellate court said that trial courts in California
14 Voting Rights Act cases have the authority to implement,
15 at least insofar -- at least the remedies that have been
16 ordered by federal courts in Federal Voting Rights Act
17 cases. So I just want to elicit what in fact they did
18 in that case.

19 MS. HENRY: If Plaintiffs' council is not
20 intending to analogize the City of Santa Monica, then
21 it's not relevant. If he's merely making a point about
22 what the law provides, Plaintiffs' counsel is free to
23 argue that in closing briefs. But this witness is not
24 allowed to provide legal conclusions for the Court to
25 draw.

26 MR. SHENKMAN: Well, I'm not going to ask
27 Professor Levitt what the Court can or can't do. I
28 simply want Professor Levitt to explain what that

1 particular court did. And then what I said about the
2 appellate court and Howard v. the City of Palmdale,
3 providing, you know, this is the authority of the trial
4 court, that's certainly not something Professor Levitt
5 would testify to.

6 MS. HENRY: A remedy that's inapposite is not
7 relevant to this case, and, again, Plaintiffs' counsel
8 can argue Jauregui and what the case in the City of Port
9 Chester -- or sorry, the Village of Port Chester held in
10 their closing briefs.

11 THE COURT: Overruled. He can answer.

12 THE WITNESS: Thank you, Your Honor.

13 BY MR. SHENKMAN:

14 Q. Okay. In -- you're familiar with the
15 Federal Voting Rights Act case involving the Village of
16 Port Chester?

17 A. I am.

18 Q. And you were involved in that case; is that
19 correct?

20 A. I was. At the time I represented the
21 amicus in that case.

22 Q. Okay. Who was the amicus?

23 A. It was an organization called "Fair Vote."

24 Q. And they advocate for certain things?

25 A. They do. They -- they advocate for various
26 different election systems and election structures and
27 administrative procedures, and in that case they were
28 advocating for at least the availability of what are

1 known as alternative remedies, like cumulative voting.

2 Q. Okay. And ultimately did the Court in that
3 case order cumulative voting in the Village of Port
4 Chester?

5 A. It did.

6 Q. How many seats were on the Village of Port
7 Chester's governing board?

8 A. I believe five, but I'd have to refresh my
9 recollection about that.

10 Q. Okay. Prior to the Federal Voting Rights
11 Act case, were those elections staggered?

12 A. Yes.

13 Q. And did the Court in the Village -- in --
14 order that the Village of Port Chester's elections be
15 unstaggered?

16 A. Yes. So the -- I mentioned that the
17 threshold of exclusion drops the number of votes that
18 you have to win in a race to guarantee a seat drops with
19 the number of seats available.

20 In Port Chester, as in Santa Monica, some
21 of the members of the trustee board were elected in --
22 in mid-term years, some were elected in presidential
23 years, and the Court ordered that all of the elections
24 would happen in the same cycle in order to make sure
25 that more seats would be up at the same time, in order
26 to lower the threshold at which the Latino population of
27 Port Chester could be expected to win.

28 Q. Have you had occasion to review academic

1 literature about the performance of cumulative voting?

2 A. I have.

3 Q. Did you review materials authored by
4 Richard Engstrom?

5 A. Yes.

6 Q. And what -- what's the sum and substance of
7 the academic literature on the effectiveness of
8 cumulative voting?

9 MS. HENRY: Objection, Your Honor. Hearsay and
10 irrelevant to the extent it doesn't speak to cities,
11 jurisdictions that are analogous based on the
12 demographics and minority population at issue as --
13 analogous to the City of Santa Monica.

14 MR. SHENKMAN: Your Honor, I'd actually think that
15 some of those cities are going to, if you'll allow
16 Professor Levitt to explain, have a minority population
17 both above and below the Latino population -- citizen
18 voting age population of Santa Monica.

19 MS. HENRY: And to the extent that People V.
20 Sanchez has held that expert opinion cannot be based on
21 hearsay documents that provide case specific facts,
22 that's my impression it should be also excluded on that
23 basis.

24 THE COURT: Well, is he providing anything about
25 Santa Monica right now?

26 MR. SHENKMAN: No. He's simply providing what the
27 academic literature is showing about --

28 THE COURT: Okay. You may answer. Overruled.

1 THE WITNESS: So in general, as referenced,
2 cumulative voting has different effects in different
3 places. But under certain conditions, particularly
4 where there's education about how the system works,
5 because it may be less familiar with to some voters, it
6 has been effective in providing minorities, even a low
7 proportion of minorities, the opportunity to both
8 influence and elect candidates of choice.

9 Professor Engstrom writes quite frequently
10 on alternative voting systems. One of the case studies
11 that he did involved a number of jurisdictions in the
12 south, particularly in I believe Texas and Alabama. And
13 he cataloged a number of jurisdictions with quite small
14 populations by voting age population.

15 In those instances they were
16 African-American voting age population.
17 African-American voting age population and citizen
18 voting population in the South is quite similar.

19 THE COURT: What would that be? You said low
20 number. What would be the low number, considered low?

21 THE WITNESS: So in the elections he studied,
22 there were I believe at least two jurisdictions where
23 the African-American population in the city or in the
24 town was 10.2 percent and 10.6 percent, I believe?
25 Those -- each of those towns elected seven members to
26 their city council or board of trustees that are a
27 similar city governance structure, and at seven members
28 the threshold of exclusion is around 12.5 percent.

1 12.5 percent of the actual voters who show up can be
2 guaranteed a seat even under the most adverse
3 conditions.

4 In these instances, voters -- populations
5 of 10.2 percent, 10.6 percent actually succeeded in
6 electing candidates of their choice to the governing
7 board.

8 THE COURT: Remind me again what the number 12.5
9 is and 20 percent that we talked about earlier.

10 THE WITNESS: Yes.

11 THE COURT: What does that represent again?

12 THE WITNESS: It represents the number of votes
13 once you add the final ballots, the final tallies. The
14 number of votes that you have -- that if you have, you
15 can be sure you'll elect somebody even under the most
16 adverse conditions.

17 So if everything else --

18 THE COURT: You mean of all the people casting
19 votes?

20 THE WITNESS: Yes.

21 THE COURT: If you have 20 percent of them who
22 vote for one candidate --

23 THE WITNESS: Yes.

24 THE COURT: -- then that candidate will win?

25 THE WITNESS: Will win, even if all else goes
26 wrong. And if all else doesn't go wrong, it's certainly
27 available to where that number is lower than that. But
28 if all else goes wrong, 20 percent of the final votes

1 cast for one candidate when there are four seats up for
2 election means that you'll win one of those four seats.

3 THE COURT: And seven is 12.5?

4 THE WITNESS: Correct. So if your group has
5 12.5 percent of the votes cast when there's seven seats
6 up for election and everybody in the group puts all of
7 their money on one candidate --

8 THE COURT: Right.

9 THE WITNESS: -- they'll win at least one of those
10 seven seats. Even if all else goes wrong.

11 BY MR. SHENKMAN:

12 Q. Okay. Based on all of this that we've
13 discussed about cumulative voting, do you have an
14 opinion on whether cumulative voting would enhance
15 Latino voting power over the current system in
16 Santa Monica?

17 A. I do.

18 Q. And what is that opinion?

19 A. It would. So under the current structure
20 in Santa Monica, if all else goes wrong, you need more
21 than 50 percent of the votes for each of the seats up in
22 any Santa Monica election, and a structure like this
23 means that it's possible to win an election for a
24 strongly concentrated minority.

25 Not geographically concentrated, but one
26 that is organized, it's possible to win an election with
27 far fewer of the total votes cast.

28 THE COURT: Now, does that include all the Latinos

1 in the other districts? Because you know they're not
2 the majority in the other districts.

3 THE WITNESS: Correct. So in a cumulative voting
4 system there's usually no need to have districts at all.

5 THE COURT: Okay.

6 THE WITNESS: So that would include -- each of the
7 citizens of Santa Monica would be able to cast their
8 votes and accumulate them and add them throughout the
9 City.

10 And so, yes, that's available not only for
11 the citizens in any particular neighborhood and any
12 particular district, but throughout the City.

13 THE COURT: So does that enhance I guess the
14 voting power of those outside of District One? Latinos
15 outside of District One?

16 THE WITNESS: It would. At least it would
17 certainly do so over and above the existing system
18 today.

19 BY MR. SHENKMAN:

20 Q. Okay. Could you turn to limited voting.

21 A. Sure.

22 Q. Okay. I'll ask you -- you've got the white
23 easel, maybe we should start another exhibit number, but
24 could you explain limited voting for the Court, please.

25 A. Sure. And at your preference whether you
26 want another exhibit number or not.

27 MR. SHENKMAN: Why don't we start Exhibit 323, I
28 think we're on.

1 THE COURT: Okay. Now, what subject area is this
2 chart?

3 MR. SHENKMAN: Limited voting, Your Honor.

4 THE COURT: Limited voting, okay.

5
6 (Exhibit Number 323, identified:
7 Limited Voting Chart.)
8

9 THE WITNESS: (Indicating.) So limited voting
10 similarly does not depend on districts. It would be
11 something that would be available throughout a
12 jurisdiction like the City of Santa Monica. And it
13 simply refers to casting fewer than the total number of
14 seats.

15 So in a standard election, four people up
16 for election, I vote for each of the seats. In a
17 limited voting scenario, I might be able to vote only
18 for three seats (indicating). Or two seats or one seat.

19 And what that does is it stops the majority
20 from winning every race. Like a cumulative voting
21 system, the majority wins most of the time, but it
22 allows room for extremely strong minority preferences to
23 elect at least one candidate of choice.

24 The most common -- I'm sorry.

25 THE COURT: Isn't that the most effective when
26 there's racial polarization? Because the minority
27 candidate won't get any other votes, the White votes.

28 THE WITNESS: So it actually works similarly with

1 cumulative voting. There's a threshold of exclusion.
2 And yes, when -- under the worst-case scenario --
3 there's a formula for knowing exactly how many votes you
4 have to win. The formula is the number of -- sorry, the
5 number of votes in which -- to which you're entitled
6 over the number of votes plus the number of seats up for
7 an election.

8 The most common limited voting scenario --
9 and this makes the math much, much easier. The most
10 common limited voting scenario is often known as bullet
11 voting.

12 THE COURT: What? I'm sorry.

13 THE WITNESS: Bullet voting. It's just one vote.
14 So four seats are up, but each person can only vote for
15 one of those seats. In a scenario like that, the
16 formula resolves itself to one permissible vote over one
17 plus the number of seats. It's the same formula that we
18 saw before.

19 And so what this does is essentially says
20 the majority will be able -- will be forced to split its
21 vote. It won't be able to win every seat all the time.

22 The minority can bullet vote with all of
23 their support behind one particular candidate, and if
24 the minority has more than 20 percent of the votes that
25 are cast, again, under the most adverse conditions, will
26 be sure that their candidate wins.

27 So if there -- the minority group is
28 cohesive behind one candidate, with the opportunity to

1 vote for just one seat out of four --

2 THE COURT: You're assuming that -- for example,
3 the White vote would be split up. Maybe they like one
4 candidate and they throw all their votes behind that one
5 candidate.

6 THE WITNESS: Yes.

7 THE COURT: That would always defeat the minority
8 candidate under that situation.

9 THE WITNESS: For that one seat, Your Honor. But
10 because of the limited voting structure -- so that's
11 exactly why this works. Exactly as Your Honor has
12 indicated --

13 THE COURT: Oh, okay.

14 THE WITNESS: -- if all of the majority throws
15 their votes behind this one seat, that means there's
16 still three seats available in the election.

17 THE COURT: I see. So -- they'll at least get
18 one. Minorities would at least get one?

19 THE WITNESS: Correct.

20 THE COURT: Okay.

21 THE WITNESS: And it works for exactly the reason
22 that you suggested. When the majority can vote for
23 every single seat, they'll win every single race. When
24 the majority can only vote for one -- when each voter
25 can only vote for one seat, if all of the Anglo
26 population decides they prefer one candidate, there are
27 still three open seats available for minorities.

28 If the majority population splits their

1 vote, then you necessarily know if you -- if your group
2 has more than 20 percent of the final votes cast in a
3 four-seat race, that that candidate will be elected.

4 Some limited voting systems allow more than
5 one vote, but it's easiest to understand when you have
6 just one vote to offer. But the formula still reduces
7 the threshold.

8 So the number of votes you're permitted
9 over the number of votes you're permitted plus the
10 number of seats still describes, again, under the most
11 adverse circumstances, how -- what portion of the final
12 voting tally you need in order to guarantee a seat.

13 With seven seats, it's -- it's exactly the
14 same as with cumulative voting. If there's one vote
15 permitted, 12.5 percent of the vote will guarantee at
16 least one of those seven seats.

17 THE COURT: Remind me what the Latino population
18 is city-wide in Santa Monica.

19 THE WITNESS: It's -- I believe it's 13.2 percent.
20 And that was with the same caveat about the time range
21 being from 2011 to 2016.

22 BY MR. SHENKMAN:

23 Q. And, Professor, the 13.2 number, is that
24 citizen voting age population or just raw population?

25 A. That's citizen voting age population, and I
26 believe that's from Dr. Morrison's calculations. I
27 believe Mr. Ely had similar calculations in the same
28 range. I -- I'm taking the 13.2 percent from

1 Dr. Morrison.

2 Q. Okay. Is it possible the 13.2 is actually
3 the 2010 through 2015 ACS numbers?

4 A. It is possible. It's a five-year bloc of
5 the American Community Survey, which is the -- the best
6 information we have to assess citizen voting age
7 population, and it's either -- it's possible it's 2010
8 to 2015. I thought it was 2011 to 2016, but it's
9 entirely possible.

10 Q. Okay. Have you seen the number
11 13.6 percent for the 2016 American Community Survey?

12 A. That sounds familiar. I cannot recall
13 whether that's from Dr. Morrison or Mr. Ely.

14 Q. Okay. And we discussed with respect to
15 cumulative voting Dr. Engstrom's study and how it had
16 been effective in other places. Has Dr. Engstrom done a
17 similar study with respect to limited voting?

18 A. He has. As have others. And limited
19 voting is in place in between 80 and 90 jurisdictions.
20 I believe Dr. Engstrom's study focused on Alabama, where
21 there was a large set of cities and towns that
22 implemented limited voting as a result of the Voting
23 Rights Act settlement.

24 And there too the members of the
25 African-American population, members of the
26 African-American community were able to elect candidates
27 of their choice with a wide range of populations, but as
28 low as 10 percent and change in the cities that had

1 seven members all up for election at the same time.

2 So it worked much as cumulative voting
3 worked. It requires a little less education because
4 it's a little more familiar to tell somebody, I know
5 there are four seats open, just vote for one. It's also
6 quite easy to implement using the existing machinery for
7 casting and counting elections. That's something --

8 THE COURT: It's easier or not easier?

9 THE WITNESS: Easier than cumulative voting. It
10 is --

11 THE COURT: Because of the machinery --

12 THE WITNESS: Correct.

13 THE COURT: -- available? Okay.

14 THE WITNESS: It does not require reprogramming of
15 anything. Either casting or counting. Cumulative
16 voting requires -- it is possible to run on the existing
17 machinery. It requires an adjustment to the ballot
18 style.

19 BY MR. SHENKMAN:

20 Q. Okay. And I perhaps -- perhaps we should
21 go into that ballot style. If we could pull up
22 Exhibit 206, please.

23 And Professor Levitt, is this an example of
24 cumulative -- a cumulative voting ballot?

25 A. This is -- yes, this is one way to design a
26 cumulative voting ballot.

27

28

1 (Exhibit Number 206, identified:
2 Cumulative voting ballot sample.)
3

4 THE WITNESS: You can see the difference, the --
5 this is Amarillo, Texas, in 2013. This is just an
6 example. There are other ways to do it.

7 The Amarillo Junior College Board of
8 Regents is a straight-up plurality election. Vote for
9 one person out of the two. That's the election in the
10 lower right-hand side of the page. The -- for a
11 two-year term.

12 For the six-year term, that was an election
13 that took place under cumulative voting, and you could
14 see that there were three seats. Each voter had three
15 votes, and this was one way to execute, allowing you to
16 spend however many votes you wished on a particular
17 candidate.

18 So if you wanted -- if I as a voter wanted
19 to put all three votes on Marie Ellyson, I would just
20 check each of the boxes by Maria Ellyson's name. If I
21 wanted to spend two votes for Maria Ellyson and two
22 votes for David Woodburn, I could do that.

23 This ballot may look a little unusual to a
24 voter. But it's possible to run with the current
25 machinery. This just tallies exactly as a more usual
26 race in Santa Monica or in Los Angeles County would be
27 tallied.

28 Q. Okay. Let's turn back to limited voting

1 for a moment. Has limited voting been ordered by
2 federal courts in Federal Voting Rights Act cases?

3 A. It has. Including -- well, that was a --
4 some of the litigation in Alabama was a settlement and
5 some of it was a court order. But yes --

6 Q. Okay.

7 A. -- it had.

8 Q. Are you familiar with Euclid, Ohio?

9 A. I am.

10 Q. Was limited voting ordered in a Federal
11 Voting Rights Act case about Euclid, Ohio?

12 A. Yes, I believe, if I'm not mistaken, it was
13 the school board in Euclid where a federal court ordered
14 limited voting.

15 Q. Okay.

16 A. And it was the same -- I believe the Court
17 ordered the single vote bullet form of limited voting.
18 Vote for one candidate in a multi-seat election.

19 Q. Okay. Do you have an opinion on whether
20 limited voting would enhance Latino voting power over
21 the current system in Santa Monica?

22 A. I do.

23 Q. What is that opinion?

24 A. I believe that it would, for many of the
25 same reasons. At present, if all else goes wrong for
26 the Latino population, they would need to win 50 percent
27 of the vote in a Santa Monica council election. That's
28 going to be quite difficult.

1 Under a limited voting structure,
2 particularly with seven seats up for an election, they
3 would have to win 12.5 percent of the vote and that's
4 much more achievable.

5 Q. Okay. Let's talk about ranked choice
6 voting, okay?

7 THE COURT: Sorry. What was that?

8 MR. SHENKMAN: Ranked choice voting.

9 THE COURT: Ranked meaning your first choice,
10 second choice, third choice?

11 THE WITNESS: Exactly.

12 BY MR. SHENKMAN:

13 Q. Have you seen anything about the discussion
14 in 1992 in Santa Monica about changing the election
15 system?

16 A. I recall that there was that discussion,
17 yes.

18 Q. Okay. And do you recall seeing a mention
19 to single transferable vote?

20 A. Yes.

21 Q. Is that the same thing as ranked choice
22 voting?

23 A. Yes. It's their -- there are two terms
24 that are used interchangeably. Sometimes one is used
25 for a single member election, like a mayoral race, and
26 the other is used for a multi-member race. But they
27 describe the same thing.

28 Q. Okay. Could you explain to the Court what

1 ranked choice voting, or also known as single
2 transferable vote, is all about?

3 A. Sure. And I don't know if you want a new
4 exhibit number for this.

5 MR. SHENKMAN: Yes.

6 THE COURT: What's the new exhibit number?

7 MR. SHENKMAN: It would be 324.

8 THE COURT: 324.

9
10 (Exhibit Number 324, identified:
11 Diagram by Mr. Levitt, ranked
12 choice voting.)

13
14 (PAUSE IN THE PROCEEDINGS.)

15
16 THE WITNESS: (Indicating.) Looking here, that
17 doesn't -- I don't know whether it's two Rs or one. It
18 doesn't look right.

19 The -- a ranked choice system, from the
20 voters' end actually is entirely intuitive. It's
21 exactly as Your Honor suggested. If there are four
22 seats, the voter doesn't need to worry about the seats
23 at all. They just rank their particular choices.

24 So I like this person first, I like that
25 person second, I like this person third, I like that
26 person fourth, and so on. For the voter it's really
27 just a list of candidates and a number order.

28 And like the other alternative voting

1 systems I've discussed, this is a mechanism for ensuring
2 that majorities win most of the seats but allowing
3 strong minority preferences to also win.

4 The way that these votes are tallied --
5 there are a number of different ways that these votes
6 can be tallied. The basic structure says any candidate
7 with more than the threshold, same threshold exclusion,
8 so more than 13 percent, anybody that gets more than
9 13 percent of the first vote wins. For those -- well,
10 actually, it's easier if there are four seats,
11 20 percent. Like the number's easier.

12 So anybody that gets more than 20 percent
13 of a first place vote wins. Any votes above 20 percent
14 are distributed to the second place proportionately so
15 that no vote is wasted. The idea is to take only the
16 amount of support that a candidate needs to win, and
17 distribute the remainder of the support. If any of the
18 second-place candidates then get more than 20 percent,
19 they win.

20 If not, you take the candidate who will
21 have lost, the candidate that comes in with the fewest
22 first place votes, and you distribute their support to
23 their second place contenders so that no vote is wasted.
24 And you eventually fill up the number of seats with
25 people who have cleared the threshold.

26 In -- it may be easier to understand the
27 tally in a one-seat race. Anybody that gets over
28 50 percent wins. If you don't get over 50 percent, you

1 take the person who did the poorest and you redistribute
2 their support. In a multi-member race, it just works
3 similarly. The calculation is a little different, but
4 the same threshold of exclusion applies in a four seat
5 race.

6 All else goes wrong. If my team, if my
7 group of voters has more than 20 percent of the vote
8 behind a first choice candidate, that person will win.

9 Ranked choice voting takes secondary
10 preferences into account, and so it also tends to help
11 some of the members of minority communities. It can be
12 a little more difficult to implement on a ballot because
13 now you need a way to have people understand not just
14 how many votes are cast but which preference, and so --

15 THE COURT: So the person in fourth place --

16 THE WITNESS: Uh-huh.

17 THE COURT: -- whose voters -- you look at their
18 rankings, and so you distribute their votes how again?

19 THE WITNESS: So this may be easier to show, Your
20 Honor. If -- don't want to use any of the attorneys in
21 the room.

22 MS. HENRY: As long as I win.

23 THE WITNESS: So if this is my ballot and I
24 vote -- I just rank them in exactly that order
25 (indicating), let's say that Candidate A has done least
26 well. This is my ballot. I love Candidate A. But
27 Candidate A gets a very low percentage. 2 percent of
28 the vote total. Candidate A is not going to win. Then

1 what you would do is you would take my vote and
2 redistribute it as counting for my second preference,
3 Candidate B.

4 If Candidate B is close to the threshold,
5 that may mean that Candidate B wins. So it takes into
6 account my second choice.

7 If Candidate B has really low support, then
8 you redistribute that vote to Candidate C and so on.
9 That's how the tally works.

10 It can be a little bit less transparent to
11 voters, it can be a little bit more difficult to
12 implement with the existing election systems, but at the
13 end of the day it functions mathematically in the same
14 way. It allows strong majorities to have their
15 candidate selected flat-out, and allows minorities with
16 strong preferences the opportunity to elect a candidate
17 of choice, even at lower numbers, and that the basic
18 threshold, four seats, 20 percent, seven seats,
19 12.5 percent, still holds mathematically for a system
20 like this.

21 MR. SHENKMAN: Thank you.

22 THE COURT: Just wondering. Since there's more
23 White voters, doesn't that give them more power under
24 that circumstance?

25 THE WITNESS: Every ballot is still only counted
26 once. And so like the limited voting structure, if the
27 White voters all prefer a particular candidate over the
28 threshold, that candidate gets elected. The -- their

1 other preferences are redistributed. But the math works
2 such that if a minority candidate has really strong
3 performance from his or her own community -- or not a
4 minority candidate.

5 If the minority community all plumps behind
6 one particular candidate, they will also be able to
7 elect a candidate to that multi-seat race.

8 THE COURT: So if the White majority splits their
9 votes between two, that leaves two more for the
10 minorities to try to select at least one?

11 THE WITNESS: Correct.

12 THE COURT: Okay.

13 THE WITNESS: It's similar to limited voting in
14 that respect. That's right, Your Honor.

15 BY MR. SHENKMAN:

16 Q. Okay. And why is this called single
17 transferable vote?

18 A. So as indicated, each voter casts one
19 ballot. That's a single vote. And it's transferable in
20 the event that it would otherwise be wasted. So if I
21 voted for a candidate who would have come in last, my --
22 my support is transferred to my second choice candidate.

23 Q. Okay. So in the sense that there's a
24 single vote, it's similar to limited voting; is that
25 correct?

26 A. Correct.

27 THE COURT: I'm going to break early. I have
28 somebody I have to meet. So I want you to come back at

1 1:30. Okay? We can start with our next subject.

2 THE WITNESS: Thank you, Your Honor.

3 MR. SHENKMAN: Thank you, Your Honor.

4 THE COURT: All right. Thank you.

5 MR. MCRAE: Thank you, Your Honor.

6 MS. HENRY: Thank you, Your Honor. Your Honor,
7 may I take some photos of this?

8 THE COURT: Yes, you may.

9
